

Committed to Access and Transparency

TTS2022 | BUENOS AIRES
September 10-14

29th International Congress of The Transplantation Society

www.tts2022.org

FINAL CALL FOR ABSTRACTS

Present your research to a global audience!

extended submission deadline: **March 30, 2022**

TTS 2022 is a great stage to showcase your research, get the right exposure and connect to a global audience. By presenting your abstract at the Congress you can:

- gain valuable feedback on your research
- foster additional studies
- find mentorship through our diverse and high-caliber attendees
- be noticed and raise your profile amongst the world leading experts

So act fast and shine the spotlight on your best abstract!

Accepted abstracts will be published in an online supplement of the *Transplantation Journal*

tts2022.org

At TTS 2022 We Award Excellence!

Congress Scientific Award

As part of our renewed commitment to rewarding excellence in research, TTS will offer a number of merit-based awards to recognize Young Investigators, Allied Health Professionals, and authors from Emerging Economy Nations who present superior abstracts at the Congress. The Congress Scientific Awards are designed to help offset expenses incurred to attend the TTS Biennial Congress.

To apply and to find out more, visit tts2022.org

TTS International Transplantation Science Mentee- Mentor Awards:

Submit Your Abstract
To Apply

In collaboration with National and International Societies, TTS acknowledges and recognizes the efforts of scientists who have advanced our understanding of transplantation science and fostered the development of young investigators. The Mentee-Mentor Awards are designed to encourage dialogue and interactions between trainees and established investigators, and provide financial support for their joint participation in the Congress.
